

Enrollment Freeze for Gold Hill Elementary School.

**FORT MILL
SCHOOLS**

Date: May 10, 2010

The Fort Mill School District Board of Trustees has extended the enrollment freeze for Gold Hill Elementary for the 2010-2011 school year.

This is the seventh time that the district has used an enrollment freeze to address rapid overcrowding of a school. Each elementary school is designed to hold approximately 900 students and the existing enrollment at Gold Hill is near capacity.

The new freeze will take effect on June 3 for new students who move into the attendance area on or after that date.

The district will provide shuttle bus transportation for affected students to Riverview Elementary. The district does reserve the right to adjust the freeze as needed.
